## Meet the team - Who are we?

### Michael Wiersma - AKA "Evermonk"

Experienced digital marketer, with a portfolio that includes more than 60 clients all around the world. Founder of Evertising agency, a dutch marketing agency that helps SMB businesses with digital marketing.

"There has been a lot of research before we started with xMonks, because we wanted to create something unique for The XRP Community."

As an entrepreneur, managing multiple businesses and clients can take its toll on your mind and body. Meditation has helped me become a better me, emotionally and in business. It's a gift, and now it is time to return the favor.

### Rajen Gadgradj - AKA "Zenmonk"

Digital marketing native, with over 15 years' experience in managing marketing for larger corporations. Entrepreneur who loves innovation and technique. Rajen studied traditional and digital marketing and has experience in a diverse range of branches and digital marketing aspects.

As a father of 3 boys, Rajen always tries to inspire, motivate and collaborate. One of his life mottos is: 'it never hurts to help'. Next to this, Rajen thrives on innovation in Web3 development.

### Harm Smulders - AKA "Monkasso"

An allround designer from The Netherlands, with his own very unique style and approach. He is the creator and the designer of the unique Temple x Monks.

Harm is co-founder and art director of creative design agency 'De Vergulde Adelaar'. From digital design to product design, his creative range is extensive. Also he worked in the entertainment industry, where he still finds inspiration in the cultural experiences the world has to offer.

### Erick Djami Rohi - AKA "Longweimonk"

A professional with 8 years of strong experience and proven achievement in sales, field & trade marketing and business development at a reputable FMCG multinational company. Experienced community manager, who helped shape the tribe to what it is today and will be in the future. His love for people, strong mindset and experience will guide you through our community.

"As a sales person, I am used to meeting new people almost everyday. It gives me joy to socialize with everyone and I want to bring that spirit into the xMonk Temple. With this, I hope to inspire them to have a positive mindset in their daily life as well."

## Mission & Vision

### Mission

Our mission is for you to be the best version of yourself. In our community we tend to help each other and share our daily events. Casual things but also deeper discussions, so that we can learn from one another and respect other opinions too.

One thing Monks do is meditate, but you don't always have to do it the traditional way. We meditate by doing things that make us happy like spending time with family and friends. Through real connection shared passions appear. By sharing that passion new connections become more meaningful. Our love and dedication for the XRP community resembles the same vision for our Tribe. We are firm believers that the XRPL will achieve the standard way of payments.

### Vision

The vision we have on this is to create a platform that contributes to the Tribe. A community that helps and guides you with your daily matters. Together, we achieve more and through collaboration we will accomplish greater things. Once we can enter the metaverse, we would like to create a metatemple where you can join our Tribe and meditate exclusively.

We are transparent and communicate on issues and other bottlenecks. Just to make sure that everything is clear and insightful. Because, like others and with new technologies, complications will appear. We are determined to address these problems and overcome them!

## Manifesto

### Peace is Every Step

Peace and harmony is the world we would like to picture. Hunger and greed will be outlawed, and prosperity will be the one goal to achieve. No longer will we be ordered to live in a bubble, but we will be free to enjoy and love OURSELVES and one and another. Race, religions, and other significant matters will no longer be a part of who we are and what we stand for. Power and wealth no longer decide who is in charge and what rules we should follow. Guidance and charity will be the leaders of this community. Help and learn from each other to achieve the greater good: THE BEST VERSION OF YOURSELF. Once that goal has been achieved, training and development of the community will be the next target. Via guidance one will become a wiser person. With wisdom new blueprints will be created to pass onto future reference.

Step by step, breath by breath.  
Peace is every step.

Step by step, breath by breath.  
Peace is every step.

A monk decides to meditate alone, away from his monastery. He takes his boat out to the middle of the lake, moors it there, closes his eyes and begins his meditation. After a few hours of undisturbed

silence, he suddenly feels the bump of another boat colliding with his own. With his eyes still closed, he senses his anger rising, and by the time he opens his eyes, he is ready to scream at the boatman who dared disturb his meditation. But when he opens his eyes, he sees it's an empty boat that had probably got untethered and floated to the middle of the lake. At that moment, the monk achieves self-realization, and understands that the anger is within him; it merely needs the bump of an external object to provoke it out of him.

From then on, whenever he comes across someone who irritates him or provokes him to anger, he reminds himself, "The other person is merely an empty boat. The anger is within me."

Moment of reflection, the power of balance is within yourself.

## The xMonk NFT

### What can you expect from holding an xMonk NFT?

#### **\*\*Higher goals\*\***

We are striving to create the best version of ourselves. We know very well that only holding an NFT and being in an amazingly close community (this one is, with lower numbers but with more engagement than other projects) isn't enough to reach that ultimate goal. Realizing this depends on funding and token sales.

1. We are looking for a new developer. And are currently talking to some potential new tribe members that can create a next level meditation app/community that will be free for holders of an xMonk NFT, and paid for external users (you may think about apps like Calm etc.).

But with a twist, what you all will definitely love! Imagine having free lifetime access to an app that you normally need a subscription for?

2. All of the benefits of the app, in metaverse(s). Yes that is correct, we will not create our own metaverse but we want our tribe to grow strong in multiple verses from partners. This is our long term goal. All of the benefits of the app will be free if you're a holder of more than 0,5 xMonk or an xMonk NFT.

#### **\*\*Some benefits for holders\*\***

1. Airdrop for holders? We will be announcing it soon, but please note that holders will be eligible for future airdrops. The longer you hold, the more tokens you may receive.

#### 2. Incubator drops

We are looking for projects to do some incubator drops with, and are in contact with them.

Our first collection of 2000 monks will be the most exclusive one, first come - first serve. Consider all tokens in circulation now as a presale or whitelist, because we will have a minting event when we will launch. Now every token has a low price and you don't know what monk you will get... Some monks will be one of a kind, and you're very lucky if you mint one of those because it will be worth more than the others. Every attribute has its own rarity.

## Distribution

The support for these types of tokens is on its way, but it isn't there yet. XLS-20d is the best solution because it enables native support on the XRP ledger. Once this technology is ready, you will be able to mint your xMonk NFTs.

### Tokenomics

The tokens are an IOU, which gives the owner the option to exchange 1 token for 2 NFT's. After the exchange, the token will be burned and the NFT is in your wallet. The NFT cannot be swapped back for the token itself. When you have minted your NFT, you will be able to do what you desire with it. For instance you can sell or auction it or keep it to yourself to represent your unique characteristics.

### Token distribution

Issuer account is blackholed. meaning there are no more than 5000 xMonk tokens to be made.

### Supply

The total supply is **5000** xMonks  
**1500** will be airdropped (30%)

`rU3vjtVJPGjoEEenkyRGiVtZCM1uzVHd11p`

**1650** tokens are dedicated to marketing and operations (33%)

`rKbek431N19en46HKvNjNK2ybJ7dV5LcBG`

**600** tokens are reserved for partnerships (locked till minting) (12%)

`rLR4MK6oLZT9bfDJDY2ffqZZSPXbHfKL7Y`

**500** tokens for giveaways (14%)

`r3NFAUQqzpQH52XCGq8Q7jwr9Lc9STPo3F`

**550** tokens for all founders to HODL (locked till minting) (11%)

`r3NFAUQqzpQH52XCGq8Q7jwr9Lc9STPo3F`

## Loyalty program

The xMonks will continue to evolve at the center of this new ecosystem. If you are a holder of one xMonk token or more, you are eligible for future airdrops and giveaways of partner projects.

## Risk and disclaimer

Please be aware of any risks involving NFTs and crypto in general, DYOR. Educate yourself on the topic before making any financial decisions. For us, but also for our community, we would like to emphasize the risk of investing too much without making ends meet. As for all, be aware and conscious of the choices you make as the market is volatile and it will be unstable. This asset will be no exception to that rule. Please keep that in mind when you are investing your money in crypto and NFT.
